Smoky Hill River Festival

June 10-13

Oakdale Park - Salina, Kansas

Greetings from the City of Salina

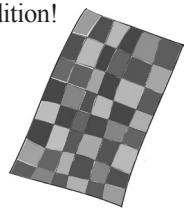
On behalf of the City of Salina, welcome to the 34th annual Smoky Hill River Festival!

For years now, the Festival has marked the unofficial start to summer fun in Salina! As a leader in arts and entertainment in Kansas, our community places a high value on the cultural experiences enjoyed right here in Oakdale Park. Just off the banks of the Smoky Hill River, you will find first class musicians, artists, sculptors, and craftsmen with talents and offerings that enrich us each summer.

As you stroll through the arts and crafts, or sit down to enjoy some music, be sure to treat your taste buds to the culinary delights of the Festival as well. From traditional fare to exotic, eating great food is part of the experience!

Here in Salina, arts and culture enhances our quality of life, and brings about a multi-million dollar economic value. Let the sights, sounds, and flavors of the Festival foster your own appreciation for the arts. Take time to enjoy these early summer days with your friends and family, and make the Smoky Hill River Festival an annual tradition!

Aaron Peck
Mayor



Welcome!

It is my privilege to welcome you to the 34th annual Smoky Hill River Festival! We have so many exciting offerings for you—including four pre-festival installations in the downtown area (see program back cover) underwritten by direct grants from the National Endowment for the Arts; and a dozen concerts/workshops with the Grammy winning artists of Trio Globo in Wichita, McPherson, Lucas, and Junction City—all extending Festival beyond Oakdale Park.

And oh boy, this wonderful Festival does extend beyond Oakdale Park and beyond the second weekend in June. Often, Festival artists are here for extended periods of time; or they return to engage the community through one of Salina's wonderful cultural organizations or with school children through the Arts & Humanities Department's nationally recognized arts-in-education program. To help us extend the creative festival spirit all summer to children in Salina's neighborhoods, this year we are launching Arts & Humanities' new Mobile Arts Van, "Arty". Please look for the colorful arts van in the park this weekend.

My heartfelt thanks to the wonderful staff and 2000 volunteers who make this event possible each year. Last, but never least, to you! Thank you for joining us!

Connie Bonfy Stewart
Executive Director

Good Neighbor Park Policy

The Smoky Hill River Festival takes place in scenic Oakdale Park, one of Salina's oldest and most beautiful. To lessen the impact of over 75,000 festival goers, and to provide a comfortable experience for everyone, the Festival is asking for cooperation with the following:

- Blankets and chairs must be removed each evening of the Festival. **Note** - following each night's closing act, Festival staff removes all blankets, chairs, etc. from the park.
- Plastic ground tarps will not be allowed because of harm to grassy areas.
- **Individual tent covers** in front of the Eric Stein Stage, and in other areas of the park **are not allowed**.
- Umbrellas will be restricted to use behind a marked boundary to facilitate sight line. Please stay behind this line with your umbrellas.
- Please **do not bring pets** or **animals** to the Festival.
- Due to obvious hazards, glass, rollerblades, skateboards, scooters, bicycles are prohibited.
- For safety, and as a courtesy to our entertainers, please keep children at a reasonable distance from the stages, and off the steps of the Eric Stein Stage.
- Absolutely NO unauthorized vending is permitted on Festival grounds.
- One last request - please place your personal trash in a receptacle. Help leave Oakdale Park in great shape!
- Access to Oakdale Park will again be limited after 10 p.m., as early morning preparations are necessary to ready the park for the day. **Gates will open promptly at 9:00 a.m. daily**, at which time Festival goers may enter the park.
- The area in front of the Eric Stein Stage is marked with an aisle for easier access to trash service.

It's Easy to be Green!

Look for receptacles for recycling of plastic water bottles and cans around the Festival, and help us to reduce the amount of trash sent to the landfill.

Catch You on the Flipside

Emotions and images, nostalgia and memories of Festivals past are translated in a contemporary kinetic photo montage. You might discover a familiar expression in this interactive installation by artists Ann Arkebauer, Salina and her sons Chris Wilson, Kansas City and Adam Wilson, Lawrence.

Distance, Direction, Event

(Phase I, 2009) Salina's remarkable cultural organizations are celebrated in a two-phase installation in this system of iconic weathervanes created by Wichita artist Elizabeth Stevenson. Look UP for the RED ARROWS throughout the Festival landscape. Each piece indicates the direction and distance from their location within the Festival to the actual locale of the organization.
"Circuit Diagrams" – (Phase II, 2010, page 40)
2010 Phase II, the weathervanes will allow each viewer to become an allegorical conduit for the energy and he or she effectively becomes a battery cell, or energy storage receptacle. When the visitor then finds their way from Oakdale Park to the corresponding cultural organization, he or she completes the "circuit" by discharging the energy into the Phase II device, in his or her interaction with the terminals there. This building-centric event thus closes the original system, while simultaneously instigating a new force; in due course, registered by one of the weathervanes. The entire installation functions as an extension of Stevenson's work *The Girl Who Lived in a Sign,* a whimsical and thoughtful story about place, energy, and life.

Dream Catchers

Art instructors Ann Zerger and Dee Erway-Sherwood, McPherson College facilitate this installation designed and executed by the college sculpture class. These environmentally friendly sculptures made of natural and recyclable materials are the result of the students' perspectives and aesthetics applied to the challenge of creating a work of art which would eventually disappear.

Explore the Mystery of the *Girl Who Lived in the Sign!*

Salina sings, dances, produces or presents art *for* YOU and *with* YOU 365 days a year!

We invite you to explore this magical park, transformed during a few days each year into a colorful bazaar of art, music and festive fun.

Then see the city again and again—explore the mystery of the *Girl Who Lived in the Sign* by investigating her **Distance, Direction, Event** installations here at the park and her **Circuit Diagrams** in downtown and beyond—find the energy that invigorates Salina to be the great place it is. (See page 15 of this program for clues.)

Salina Arts and Humanities Commission received National Endowment for the Arts funding for *Salina Street Sites*, a temporary installation project to commission four site-specific visual art installations in a concentrated area in the central part of the City. Regional commissioned artists, working with a mentor knowledgeable in community-based art, developed four distinctly different installations. We encourage you to explore them.

Waiting in the Wings

A mural designed by David Loewenstein (Lawrence) is being painted in collaboration with Debbie Wagner of Bennington; created for the wall behind the outdoor stage at Campbell Plaza, 100 block South Santa Fe.

Organic Constructions

Kenneth A. Huff is an interdisciplinary visual artist (Savannah, GA) working in a variety of traditional and new media. Working with Josh Morris (curator, Smoky Hill Museum) time-based video window installations will explore evolving patterns and forms in nature. 100 - 300 blocks of North Santa Fe. (Festival after dark - Bicentennial Bridge)

Circuit Diagrams

Artists Elizabeth Stevenson (Wichita) in collaboration with Randy Regier (K-State MFA graduate now living in Maine) have created the second phase of her 2009 Smoky Hill River Festival project exploring the energy of the community that is driven by Salina's incredible arts and cultural organizations. See inside back cover for clues on where to find them.

Iron Pour

Ed Pogue (Bethany College, Lindsborg) and Tobias Flores (Fort Hays State University) completed a large Cast Iron Pour in downtown Salina. Small castings from the pour and a video of the event can be seen at the Festival Demonstration Area.
